

Mohamed Shahidul Islam

Villa College
Malé, Maldives
shahidul.islam@villacollege.edu.mv
(+960) 9419913
<https://github.com/shahid1096>

Research Interests

Bioinformatics, Machine Learning, Data Mining, Optimization.

Education

- Sep 2019 – **Postgraduate Certificate of Teaching on Higher Education, Attending.**
Villa College, Malé, Maldives
- Jan 2019 – **M.Sc. in Computer Science and Engineering, Attending.**
Khulna University, Khulna - 9208
- 2015–2018 **B.Sc. in Computer Science and Engineering.**
Khulna University, Khulna - 9208
CGPA: 3.53 out of 4.00
- 2012–2014 **Alim.**
Tamirul Millat Kamil Madrasah, Dhaka - 1204
GPA: 5.00 out of 5.00
- 2010–2012 **Dakhil.**
Sarsina Darussunnat Kamil Madrasah, Perojpur-8521
GPA: 5.00 out of 5.00

Working Experiences

- August **Lecturer.**
2019–To date Faculty of Information and Communications Technology (FICT),
Villa College, Male'-20373, Maldives
- August **Programmer.**
2019–To date Center for Information and Communications Technology (CICT),
Villa College, Male'-20373, Maldives

Computer skills

Languages C, C++, SQL, Java, JavaScript, PHP, Python, C#, ASP.Net, HTML
Databases SQL, MySQL

Framework Laravel 5, Zend 2
Applications Microsoft Office (Word, Excel, PowerPoint), Latex, Android Studio, Unity, Jupyter Notebook

B.Sc. Thesis

Title **RNA Secondary Structure Prediction with Pseudoknots using Chemical Reaction Optimization (CRO).**
Supervisor **Dr. Md. Rafiqul Islam.**
Description This research is focused on the popular optimization problem of RNA secondary structure prediction with pseudoknots which was implemented using a metaheuristic algorithm called Chemical Reaction Optimization (CRO). We have redesigned the basic operators of CRO to solve our problem and also designed a repair operator to increase the performance. The hard tasks during the implementation of the problem were calculating the free energy of the structure by implementing four energy models and maintaining the accuracy of the predicted structure. The results of the RNA structure prediction with pseudoknots problem using CRO algorithm are compared with the related existing algorithms. The results show that the proposed algorithm performs very well in less execution time than other related algorithms..

Languages

Bangla	Native Speaker	<i>R: Excellent, W: Excellent, S: Excellent, L: Excellent</i>
English	Intermediate	<i>R: Excellent, W: Good, S: Good, L: Excellent</i>
Arabic	Intermediate	<i>R: Excellent, W: Good, S: Null, L: Fair</i>

Personal Information

Full Name	Mohamed Shahidul Islam
Father's Name	Asmot Ali
Mother's Name	Asia Begum
Date of Birth	08-10-1996
Sex	Male
Marital Status	Single
Nationality	Bangladeshi
Blood Group	A+ve
NID No	7805771099
Passport No	EB0366375
Hobbies	Traveling, Fishing, Swimming, Diving.

Awards and Achievements

- 2017 **Champion.**
Programming Contest, KU CSE FEST-2017
2nd Runner-up.
IT Quiz, KU CSE FEST-2017
- 2016 **Participant.**
- National Hackathon 2016 organized by ICT Division
- Smart City Hackathon organized by PreneurLab, Grameenphone & White-board
- 2014–2018 **Contestant.**
- Participated more than 40 online contests in Codeforces, Codechef & Codemarshal
- Over 110 problems accepted at UVa Online Judge
- 2014 & 2009 **Scholarship.**
Bangladesh Madrasah Education Board

Other Activities

- August **General Secretary.**
2017–June Club for Updated Search on Computer (CLUSTER)
2018 CSE Discipline, Khulna University
